# What are Social Determinants of Health (SDOH)?

SDOH are the  
ways in which we  
live, work, play,  
learn and age.

SDOH are divided  
into subject areas  
or core domains

One way to  
examine SDOH in  
communities is  
through maps.

By creating maps  
of indicators  
related to the  
domains -

We can visualize  
where there are  
common issues.

Public Health  
programs can then  
address SDOH with  
targeted resources.

# Domains And Data

# Economic Domain

Median Household Income

Percent Below Poverty

Percent Unemployed

Percent Uninsured

# Housing & Transportation Domain

Percent Living in Rentals  
Percent Paying >30% Rent  
Percent Overcrowded  
Percent with No Vehicle

# Social & Neighborhood Resources Domain

Percent with No Diploma

Percent Speak Limited English

Percent Single Parent

Low Access to Healthy Foods

These indicators were  
Selected because they  
are available below the  
county level – at the  
Census Tract

The indicators can  
also be updated over  
time.
