NC LEA School Nurse/Student Ratio 2019-20

SN/Student Ratio of 1:750 or Less

SN/Student Ratio of 1:751 - 1,000

SN/Student Ratio of 1:1,001 - 2,000

SN/Student Ratio of 1:2,001 - 2,322

Federal and Military School Districts

Source: NC Annual Survey of School Health Services, NC DHHS

Note: The historical standard of one nurse to 750 regular education students was adopted by the NC Public Health Task Force and set by the National Association of School Nurses (NASN). The recommended standard has since been revised by NASN and the American Academy of Pediatrics to one nurse per school, dependent on school size and acuity.
